Pre-reading Questions

1. Do you enjoy living in your city?
2. Can you describe your city?
3. What are some advantages of living in your city? How about some disadvantages?

CITY LIFE

I was born and raised in a big city and I really enjoy it because there are always many things to do. I think living in the city has many advantages. One of the advantages of city life is that everything is closer to home, such as shops, supermarkets, hospitals, schools and other places. If you are a student, you have a better choice of schools and higher **quality of education**, and if you've already finished school it's easier to find a good, **well-paid job** and have a **successful career**.

In the city there are also many kinds of **entertainment** available, such as restaurants, cinemas, theatres, night clubs, museums, art galleries and **sporting events**. There is always something to do.

But of course living in the big city also has some disadvantages. The air is **polluted**, traffic is heavy and it can be very noisy. In addition, shops and **public transport** are sometimes very crowded. It can also be unsafe, as many big cities have a high **rate of crime**. The **cost of living** is also higher than in small towns or the countryside.

I guess every place has its **pros and cons**, but right now I find the big city to be a very exciting place to live.

Maybe one day, when I'm older I would like to live in a small town or in the countryside, where I can have a very healthy **lifestyle**. There I can be closer to **nature** and breathe the clean air and enjoy the peace and quiet. There is nothing like enjoying a beautiful **sunset** and **sunrise** in the countryside, or waking up in the morning to the sound of birds singing.

I also love animals and I would really like to have some dogs and run around and play with them. I don't have any dogs here in the city because I think it is not a good place to have pets.

Another thing I really like about small towns is that people are usually friendlier than in the big cities and it is also much safer. People actually say hello and goodbye to each other as they walk by.

Finally, everything is much cheaper living in the countryside. You can even grow your own fruits and vegetables!
